# Health Care Financing Program Statistics

The Health Care Financing Administration was established to combine health financing and quality assurance programs into a single agency. HCFA is responsible for the Medicare program, Federal participation in the Medicaid program, the Professional Standards Review Organization program, and a variety of other health care quality assurance programs.

The mission of the Health Care Financing Administration is to promote the timely delivery of appropriate, quality health care to its beneficiaries—approximately 47 million of the nation's aged, disabled, and poor. The Agency must also ensure that program beneficiaries are aware of the services for which they are eligible, that those services are accessible and of high quality, and that Agency policies and actions promote efficiency and quality within the total health care delivery system.

HCFA's Office of Research, Demonstrations, and Statistics (ORDS) conducts studies and projects that demonstrate and evaluate optional reimbursement, coverage, eligibility, and management alternatives to the present Federal programs. ORDS also assesses the impact of HCFA programs on health care costs, program expenditures, beneficiary access to services, health care providers, and the health care industry. In addition, ORDS monitors national health care expenditures and prices and provides actuarial analyses on the costs of current HCFA programs as well as the impact of possible legislative or administrative changes in the programs.

Medicare **Program Statistics** present detailed reports on Medicare enrollment, providers, and the use of reimbursement for covered services. Medicare enrollment data report the number of persons insured under Part A and Part B of the Medicare program by age, race, sex, and place of residence. Provider statistics consist of information on the number, distribution, and characteristics of hospitals, skilled nursing facilities, home health agencies, and independent laboratories certified to furnish and receive payment for covered health services to Medicare beneficiaries.

## Introduction

This report presents data on enrollment and reimbursements by State and county under Medicare's hospital insurance (HI) and supplementary medical insurance (SMI) programs for 1978 and 1979. It provides figures on the number of persons enrolled under Medicare as of July 1, 1978 and 1979 and the amounts reimbursed during calendar years 1978 and 1979 to, or on behalf of, insured persons. The tables provide reimbursement data for all Medicare beneficiaries by specific categories of eligibility: age, disability, and end-stage renal disease (ESRD). Reimbursements for the two programs amounted to \$24 billion in 1978 and \$28 billion in 1979.

## Enrollment and Reimbursements, 1978 and 1979

Enrollment and reimbursement data for each State and area of residence are shown for all persons in Table A. For beneficiaries age 65 and over and disability beneficiaries below age 65, the data are shown in Tables B and C respectively. Data for beneficiaries with end-stage renal disease are shown in Tables D and E. Tables F and G show amounts reimbursed to aged and disabled beneficiaries by State and metropolitan and non-metropolitan counties. Tables H and I show the amounts reimbursed by State and for each county.

Current reimbursement amounts by type of benefit are published monthly in the Social Security Bulletin and quarterly in the Health Care Financing Review.

## Trends, 1967-1979

As shown in Table 1, the increased reimbursements for 1978 and 1979 represent a continuation of the rising trend in Medicare reimbursements noted since the beginning of the program. Between 1967 (the first full year of the Medicare program) and 1979, total Medicare reimbursements increased from \$5 billion to \$28 billion—an average annual increase of 15.1 percent. During this period, the average monthly reimbursement per beneficiary rose from \$15 to \$83, an average annual increase of 15.5 percent.

Prior to 1973, persons age 65 and over constituted the entire beneficiary population. The Social Security Amendments of 1972 extended Medicare coverage to two groups of persons under 65 years of age: (1) disabled persons entitled for not less than 24 consecutive months to cash benefits under the social security or railroad retirement programs, and (2)

persons who are currently or fully insured or entitled to monthly social security benefits and their spouses or dependent children who have end-stage renal disease and require renal dialysis or kidney transplant.<sup>1</sup>

## Aged Enrollees, 1967-1979

Total Medicare reimbursements for services provided to persons 65 years and over increased from \$5.1 billion in 1967 to \$24.0 billion in 1979, an annual average increase of 13.7 percent. Between 1967 and 1979, HI reimbursement for the aged increased from \$3.8 billion to \$16.9 billion, an average annual rate increase of 13.2 percent. The monthly average reimbursement per HI beneficiary increased fivefold from \$11 to almost \$58, an average annual increase of 14.7 percent.

Reimbursements for SMI services increased from \$1.3 billion to about \$7.1 billion, an average annual rate increase of 15.1 percent. The average monthly SMI reimbursement per beneficiary increased sixfold from \$4 to \$24—an average annual increase of 16.2 percent.

SMI reimbursements as a portion of total reimbursements for the aged rose from 25 percent in 1967 to 29 percent in 1979.

## Disabled Enrollees, 1974-1979

Between 1974 (the first full year of coverage for the disabled) and 1979, total reimbursements for the disabled increased from \$1 billion to \$3.7 billion (an average annual increase of 30.6 percent). The average monthly reimbursement per beneficiary increased from \$42 to almost \$106—an average annual increase of 20.0 percent.

Reimbursements for HI services increased from \$0.7 billion in 1974 to \$2.3 billion in 1979—an average annual increase of 28.6 percent. The average monthly reimbursement per beneficiary rose from almost \$29 in 1974 to \$66 in 1979, (an average annual increase of 18.2 percent). Similar to the aged, reimbursements for SMI services had a higher rate of increase than that for HI, going from \$0.3 billion in 1974 to \$1.4 billion in 1979 (an average annual increase of 34.2 percent). However, reimbursements for SMI services to the disabled are a more significant proportion to the total than the same for the aged. In 1979, SMI reimbursements to the disabled were 37 percent of all reimbursements compared to 29 percent for the aged. In 1979, average monthly SMI reimbursement per disabled beneficiary (\$43) was almost double the average for the aged (\$24).

As shown in Table 2, the major reason the disabled had a larger proportion of SMI reimbursements was the number of ESRD beneficiaries among the disabled. Persons with ESRD represent a larger proportion of the disabled enrollment than of the aged. Persons with ESRD account for significant program costs because of their need for renal dialysis services. When received on an outpatient basis, the cost of dialysis is covered

This report was written by Kathryn D. Barrett of the Program Statistics Branch, Herbert A. Silverman, Chief. It is one of a series prepared in the Office of Research, Judith Lave, Director, to describe the distribution of benefits under the Medicare and Medicaid programs administered by the Health Care Financing Administration. The report was written under the administrative supervision of Allen Dobson, Director, Division of Beneficiary Studies.

NA Not available

under SMI. The average patient on maintenance dialysis requires three dialysis treatments per week at an average charge of \$149 per dialysis. Over the course of a year, this amounts to \$23,244 per patient.

Table 2 shows that in 1978 and 1979 when the costs of services to ESRD patients were removed, there was little difference between the aged and disabled in the average monthly SMI reimbursement per beneficiary.

**TABLE 2**

**Monthly Average Reimbursement Per Beneficiary for Supplementary Medical Insurance in the United States by Type of Beneficiary, 1978-1979.**

Type of Beneficiary	1978	1979
All Disabled	\$35.42	\$43.49
Disabled Excluding ESRD	21.21	26.65
All Aged	20.75	24.52
Aged Excluding ESRD	20.39	24.03

Data for this report were supplied from the Medicare Statistical System which is designed and maintained by the Division of Data Production, Office of Statistics and Data Management. Computer services and programming for the general tables were provided by Karl Foltz. Important contributions to the tabulation and presentation of these tables were made by Wayne Kaczmarkiewicz.

The general tables were produced by the System for Automated Tabular Composition, a computer system developed by the Office of Statistics and Data Management. They were photo typeset by Linotron equipment at the Government Printing Office. Donald Swaner and Robert Dickerson made significant contributions in these areas.

Acknowledgment for assistance in preparing this report is made to Elvira Fussell and Lorraine Miller, and to Carole Weinberg for typing.

## Appendix A

### Sources and Limitations of Data

Reimbursements for HI and SMI, presented in this report, represent amounts paid in 1978 and 1979, to or on behalf of insured persons.<sup>2</sup> The amounts are based on information from bills entered in Health Care Financing Administration records through June 1979 for calendar year 1978, and through June 1980 for calendar year 1979, and are listed by the State and county of the beneficiary's residence. Only reimbursed payments for covered services provided to beneficiaries are included; administrative costs, deductibles, copayment amounts, and services not covered by Medicare are excluded.

Also excluded are \$97 million in SMI reimbursements for 1978 and \$147 million for 1979 to group practice prepayment plans and health maintenance organizations dealing directly with HCFA. However, enrollment figures shown in the tables include 341,481 aged and disabled members of such plans as of July 1, 1978 and 499,206 members as of July 1, 1979.

The amounts reimbursed under the HI part of the program are based on interim rates which are adjusted after the end of each provider's accounting year on the basis of reasonable costs of operation. There are similar retroactive adjustments for home health and outpatient services covered by SMI. During calendar year 1978, retroactive adjustments added \$664 million under HI and \$324 million under SMI to interim reimbursements. In 1979, comparable adjustments added \$813 million for HI and \$365 million for SMI. Other payments under SMI are based on "allowed" (reasonable) charges for medical services determined on the basis of customary and prevailing charges.<sup>3</sup>

<sup>2</sup>Amounts for 1978 are based on bills processed through June 1979, with approval dates in 1978, plus bills processed from July 1978 through June 1979, with approval dates prior to 1978. Bills with approval dates prior to 1978 were received too late to be included in reports covering those years. Similarly, amounts for 1979 are based on bills processed through June 1980, with approval dates in 1979, plus bills processed from July 1979 through June 1980, with approval dates prior to 1979. Bills with approval dates prior to 1979 were received too late to be included in reports covering those years.

<sup>3</sup>Both HI and SMI amounts reimbursed and *per capita* reimbursements increased each year. The rise in *per capita* reimbursement since Medicare began has been due primarily to increases in hospital costs and physicians' charges. For more detailed information on interim rates and allowed charges see Provisions of the Law and Regulations in this report.

## Appendix B

### Provisions of the Law and Regulations

The Medicare program, enacted on July 30, 1965 as Title XVIII of the Social Security Act, became effective on July 1, 1966. In 1972, major changes were made in the program's provisions by Public Law 92-603, enacted October 30, 1972. Effective July 1, 1973, the name of the Medicare program was officially changed to Health Insurance for the Aged and Disabled (The Social Security Act as amended through December 31, 1978).

Effective July 1, 1973, Medicare coverage was extended to disabled beneficiaries under the social security and railroad retirement programs, and to persons under age 65 who require dialysis or a kidney transplant for End Stage Renal Disease (ESRD).

The program makes available two separate but complementary insurance programs: 1) hospital insurance, covering nearly all persons age 65 and over, disabled beneficiaries under age 65 entitled to benefits for at least 24 consecutive months, and covered workers and their dependents with ESRD who require renal dialysis or a kidney transplant, and 2) supplementary medical insurance covering those persons who voluntarily pay the premiums. Beginning July 1973, most persons age 65 or over otherwise ineligible for hospital insurance may enroll voluntarily and pay the premium for hospital coverage if they are enrolled for supplementary medical insurance.

#### Hospital Insurance Program

Following a period of hospitalization, the hospital insurance (HI) program pays for part of the cost of inpatient hospital care and related health care services provided by skilled nursing facilities (SNF) (formerly termed extended-care facilities), and home health agencies (HHA). For the services to be covered, they must be provided by institutions and organizations which have been certified as qualified providers of services and which have signed an agreement to participate in the program. (Code of Federal Regulations, 1980).<sup>4</sup>

#### Benefits

The law provides limits on services which may be covered under the HI program. These limits are based on the concept of a "benefit period." A benefit period begins with the first day of hospitalization and ends when the individual has not been a bed patient in a hospital or SNF for 60 consecutive days.

The law also established cost-sharing by the individual through deductible and coinsurance payments. The Secretary of the Department of Health and Human Services is required each year to determine the deductible amount, by a formula specified by law. The formula is based on the average

per diem rate for inpatient services furnished to beneficiaries during the preceding calendar year. The deductible amount tends to approximate the current cost of one day in a hospital.

#### Inpatient Hospital Benefits

Covered hospital services include room and board in accommodations containing from two to four beds, nursing services (except for private duty nursing), drugs and biologicals, and other services ordinarily furnished by a hospital to its inpatients.

The program does not cover the services of physicians (including staff radiologists, anesthesiologists, pathologists, and psychiatrists except for services provided by interns or residents under approved teaching programs).

The program pays for the "reasonable costs" of covered services in a participating hospital for up to 90 days in a benefit period. Full payment is made for the first 60 days of hospitalization, less a deductible applicable to each benefit period. The deductible, which is adjusted each year, was \$144 in 1978 and rose to \$160 in 1979. For each of the remaining 30 days in the benefit period, the patient pays a coinsurance amount equal to one-fourth of the deductible.

Each HI beneficiary also has a "lifetime reserve" of 60 additional hospital days which can be used at his or her option whenever the 90 days covered in a benefit period are exhausted. In 1978, lifetime reserve days were subject to a copayment of \$72 per day (equal to one-half of the deductible) and increased to \$80 in 1979.

The cost of the first three pints of blood (or equivalent amounts of packed red blood cells) furnished a patient during a benefit period is also deductible, unless the patient arranges for replacement. Charges for any additional blood are covered under the program, as are charges for blood administration, storage, etc.

The program also pays for emergency services in a non-participating hospital. Each non-participating hospital providing emergency services may elect to claim payments from the Medicare program for emergency services rendered beneficiaries in a given year. If the hospital elects this option, reimbursement is made as described above. If the hospital elects not to bill the program, the beneficiary claims direct payment and submits the itemized bill. In this case reimbursement is based on reasonable charges for covered services and amounts to 60 percent of reasonable charges for room and board, plus 80 percent of such charges for ancillary services. Payment is subject to the deductible and coinsurance provisions of the law.

Hospital insurance benefits also include reimbursement for inpatient tuberculosis and psychiatric hospital services. However, there is a lifetime limit of 190 days of care in the psychiatric hospital. When a person in a participating psychiatric hospital becomes entitled to hospital insurance, the number of days he or she was such an inpatient in the 150-day period prior to eligibility is deducted from the individual's days of entitlement to inpatient psychiatric care in that benefit period, but not from the lifetime limitation.

<sup>4</sup>An exception exists under special provisions for hospitals certified to provide only emergency services. For regulations pertaining to certification requirements see Code of Federal Regulations, 1980.

Hospital insurance benefits have been extended to cover payments for inpatient services furnished by a foreign hospital, if it is closer or more accessible to the beneficiary's residence than a U.S. hospital. For benefits to be payable, the beneficiary must be a U.S. resident and the foreign hospital must be accredited by, or have standards equivalent to, the Joint Commission on Accreditation of Hospitals (JCAH).

### Skilled Nursing Facility Benefits

Covered post-hospital-care furnished by a SNF include nursing care, room and board, physical, occupational, or speech therapy, drugs and biologicals, medical services of an intern or resident-in-training of a hospital having a transfer agreement with the SNF and other necessary health care services generally provided by such facilities.

The program pays for the reasonable costs of all covered inpatient services in participating SNFs for up to 100 days in a benefit period. Benefits are payable only following discharge from a hospital after a stay of three or more consecutive days; generally the admission to the facility must occur within 14 days of hospital discharge. However, a period of up to 28 days after discharge from a hospital is permitted when the patient's medical condition or a shortage of beds delays the admission date. Full payment is made for the first 20 days. For each of the remaining 80 days, the patient pays a coinsurance amount per day equal to one-eighth of the inpatient hospital deductible: (\$18 in 1978 and \$20 as of January 1, 1979).

For SNF services to be covered, a physician must certify that the patient needs daily skilled nursing care or skilled rehabilitation services and must order the services. The 1972 amendments include a provision for advance approval of SNF services, whereby the Secretary of HHS establishes by medical condition, when a patient will require skilled nursing care services after hospitalization. Accordingly, a patient's physician may certify the need for a SNF and submit a plan, in advance of admission, as to the type of services to be provided. The plan will be presumed to be the type of covered care furnished by a SNF.

### Post-Hospital Home Health Benefits

Covered home health services may include part-time or intermittent nursing care, physical, occupational or speech therapy, part-time or intermittent services of a home health aide, medical supplies (other than drugs and biologicals) and the use of medical appliances, and, in certain cases, services of an intern or resident-in-training of a teaching hospital. The services must be furnished by or under arrangements of an approved HHA.

Coverage under HI provides for payment of the reasonable cost of up to 100 home health visits after the beginning of one benefit period and before the beginning of the next.<sup>5</sup> There is no deductible and no coinsurance. The visits must occur within a year

<sup>5</sup>The Omnibus Reconciliation Act of 1980 (P.L. 96-499) removed the limit on home health visits.

following a beneficiary's most recent discharge from a hospital stay of at least three consecutive days or from a covered stay in a SNF. The home health services must be necessary for further treatment of a condition for which the patient received services in the hospital or SNF. A home health plan must be established by the patient's physician within 14 days after the hospital or SNF discharge. The 1972 amendments include a provision for advance approval of home health coverage similar to that provided for skilled nursing care services.

## Supplementary Medical Insurance Program

The supplementary medical insurance (SMI) program provides coverage for a variety of medical services and supplies furnished by physicians or others in connection with physicians' services, outpatient hospital services, and home health services. Individuals participate voluntarily in the program. Premiums are paid by or on behalf of all beneficiaries and by the Federal government from general revenues.

### Benefits

Physicians' services covered under the program include visits to the home, office, hospital, and other institutions. The program also pays for other services and supplies, such as drugs and biologicals that cannot be self-administered, if they are furnished as a part of a physician's professional service. It also covers diagnostic X-ray tests, diagnostic laboratory tests, and other diagnostic tests, X-rays, radium, and radioactive isotope therapy, splints, casts, and other devices used for reduction of fractures and dislocations, purchase or rental of durable medical equipment, ambulance service, and prosthetic devices that replace all or part of an internal organ. Home health visits provided by a certified HHA in accordance with a home health plan established by the patient's physician are also covered. (No prior hospitalization is necessary). Payment may be made for up to 100 home health visits in a calendar year without regard to similar services received under the HI program.<sup>6</sup>

Hospital services incident to physicians' services rendered to outpatients and outpatient speech and physical therapy services are also covered. In addition, effective July 1, 1973, the 1972 amendments provided for services of a physical therapist in independent practice furnished in the office or the patient's home, under a physician's plan. Reimbursement would be limited to not more than \$100 of incurred expenses in a calendar year.

Some services of a licensed chiropractor are covered. Covered services are limited to treatment by means of manual manipulation of the spine to correct a subluxation (partial dislocation) demonstrated by X-ray.

<sup>6</sup>The Omnibus Reconciliation Act of 1980 (P.L. 96-499) removed the limit on the number of visits and eliminated the application of the SMI deductible to HHA services under SMI.

In each calendar year through 1972, a \$50 deductible had to be satisfied before payment could be made under the SMI program. In 1973, the deductible was raised to \$60, where it currently remains. Bills count toward the deductible on the basis of incurred rather than paid expenses; only charges allowed under the program count toward the deductible. To preclude the possibility of a beneficiary having to meet a deductible twice in a short period of time a "carryover" provision is applied. Accordingly, covered expenses incurred in the last quarter of the year and applied to the deductible in that year are also credited toward the deductible for the following year.

After the deductible has been met, the SMI program pays for 80 percent of the allowed (reasonable) charges for covered physician services and most other medical services. However, deductible and coinsurance requirements do not apply to the services of radiologists and pathologists furnished to hospital inpatients. "Reasonable" charges for such services are reimbursed.

When an independent laboratory bills patients directly and accepts assignment, the Secretary of the Department of Health and Human Services (HHS) is authorized to negotiate a payment rate with the laboratory for the diagnostic tests it provides Medicare beneficiaries. Reimbursement on assigned bills is made at 100 percent of the negotiated rate; the deductible and coinsurance requirements do not apply. Hospital services incident to outpatient care and home health services are subject to the deductible and are reimbursed on the basis of 80 percent of reasonable costs. However, coinsurance payments for home health services were eliminated after December 1972.

The law sets special limits on the payment which may be made for outpatient treatment of mental illness; recognition of incurred expenses is limited to the lesser of \$312.50 or 62.5 percent of actual expenses in a calendar year. Since only 80 percent of allowed charges may be reimbursed, the effect is to limit payment to \$250 or 50 percent of the allowed charges in any year after the deductible has been met, whichever is less.

## Eligibility

### Hospital Insurance

Almost all persons age 65 and over are eligible for benefits under the HI program. Included are those entitled to monthly social security cash benefits or payments from the railroad retirement system. Further, a special transitional provision provided eligibility for certain persons who did not qualify for monthly cash benefits on the basis of their own covered employment or as a dependent or survivor of an insured worker. The provision applied, generally, to a person age 65 or over who 1) attained age 65 before 1968, or 2) attained age 65 after 1967 with not less than three quarters of social security coverage, whenever acquired, for each calendar year elapsing after 1966 and before the year in which he or she attained age 65. For persons who reached age 65 after 1968, the amount of work credits (quarters of coverage) needed increased by three quarters each year—six quarters were needed by those

who reached age 65 in 1969, nine by those who reached 65 in 1970 and so on. The transitional provision does not apply to persons attaining age 65 after 1974.

Hospital insurance protection under certain circumstances can be retroactive for as many as 12 months before the month an individual files an application for entitlement. For example, an individual may apply 11 months after attaining age 65 and still be entitled to benefits from the month he or she attained age 65.

Effective July 1, 1973, disabled persons entitled for not less than 24 consecutive months to cash benefits under the social security or railroad retirement programs are eligible for benefits under the HI program. Those covered include disabled workers under 65 years, disabled widows and disabled dependent widowers between the ages of 50 and 65, women age 50 or older entitled to mothers' benefits who for 24 months met requirements for disability benefits but did not file a claim, and disabled beneficiaries age 18 or over who became disabled before age 22. A person must be disabled for five months before disability benefits can begin. Medicare coverage begins with the 30th month after the first full calendar month of disability.

HI protection is available to all persons who are currently or fully insured or entitled to monthly social security benefits, and to their spouses or dependent children who have ESRD and require renal dialysis or a kidney transplant. Eligibility for coverage begins with the third month after a course in renal dialysis begins or before this qualifying dialysis period for ESRD beneficiaries receiving kidney transplants without starting or receiving dialysis in preparation for transplantation. Eligibility ends with the 36th month after the person had a kidney transplant or dialysis was terminated.

The law now permits persons attaining age 65 who are ineligible for HI either as cash beneficiaries or under the transitional provisions to voluntarily enroll for hospital coverage. Coverage under this provision was effective July 1, 1973, and the monthly premium originally set at \$33 was \$63 on July 1, 1978 and rose to \$69 on July 1, 1979. The premium represents the estimated *per capita* cost for services furnished under the hospital insurance program. Individuals may enroll in the HI program only if they enroll in the SMI as well. Enrollment periods for hospital protection were the same as the initial and general enrollment periods under SMI.

Persons who retired from Federal service after July 1, 1960 and had the opportunity to be covered under the Federal Employees Health Benefits Act of 1959 are ineligible for HI benefits under the transitional provisions. Also ineligible are aliens with less than five years of continuous residence in the United States and those persons convicted of crimes against the security of the United States.

### Supplementary Medical Insurance

Persons entitled to benefits under the HI program, aged retired Federal employees, aged aliens residing in the United States, and aged persons not eligible for

hospital insurance under the transitional provisions may participate voluntarily in the SMI program. To enroll prior to July 1, 1973, the person had to file a written request with the Social Security Administration during specified periods. To prevent loss of entitlement or delay, the 1972 amendments provide for automatic enrollment in SMI for persons as they become entitled to hospital insurance. An individual may decline SMI enrollment. If he or she withdraws before coverage starts, there is no premium liability, nor is the individual charged with an enrollment.

Individuals may enroll in the SMI program only during the initial and general enrollment periods. The initial enrollment period begins with the third month preceding the one in which an individual is first eligible and ends three months after the month of attainment, a total period of seven months. If the person enrolls during the three months prior to the month in which he or she is first eligible, coverage is effective with the first month of eligibility; if he or she enrolls during the month of eligibility, coverage begins the following month; if he or she enrolls in any of the three months after eligibility, coverage begins from two to three months after enrollment, depending on how long the person waited before enrolling.

Beginning with 1969, SMI general enrollment periods are from January 1 through March 31 of each year for those who did not enroll in their initial enrollment period, or who previously terminated their enrollment and wish to re-enroll. A person who enrolls during a general enrollment period is covered under SMI beginning with July 1 of the year in which he or she enrolls. Prior to the 1972 amendments, an eligible individual had to enroll within three years after the end of the initial enrollment period or within three years after termination of prior enrollment. The three year limitation is no longer applicable.<sup>7</sup>

A State may enroll eligible aged and disabled individuals who receive cash payments under State supplementary income or State supplementation programs, or who are otherwise eligible for medical assistance under Title XIX if: 1) prior to January 1, 1970, the State requested that a State-Federal enrollment agreement be established, and 2) the State pays the necessary premiums.

For a person 65 years and over, enrollment terminates with the beginning of the month following the month of death. For the disabled person, coverage terminates with the end of entitlement to benefits based on disability. For a person with ESRD, coverage ends 36 months after he or she has a transplant or dialysis treatment ends. Otherwise, social security and railroad retirement beneficiaries may give notice of their desire to withdraw from the SMI program at any time; their coverage is terminated at the close of the following calendar quarter. Other enrolled persons may terminate their coverage by withholding payment of premiums or by notifying the Social Security Administration in writing of their desire to withdraw from the program. The beneficiary is provided a 90-day grace period for the payment of overdue premiums, after which coverage is automatically terminated. The

1972 amendments extend the 90-day grace period for an additional 90 days when the Secretary finds there is a good cause for failure to pay the premium before the end of the initial grace period.

## **Financing the Program**

### **Hospital Insurance**

The HI program is financed primarily through a tax on a portion of current earnings in employment covered under the Social Security Act. The maximum amount of annual earnings to which the tax is applied began at \$6,600 for calendar year 1966; it increased to \$7,800 effective with 1968 and \$9,000 with 1972. The 1977 amendments established an additional schedule of increases to \$17,700 for 1978 and \$22,900 for 1979, with future automatic increases as wages rise.

The same tax rate applies to employees, employers, and self-employed persons. The rate was 0.60 percent for each year 1968 to 1972. The scheduled rate for 1973 was 1.00 percent, 0.90 percent for 1974 to 1977, 1.00 percent for 1978, and 1.05 percent for 1979; rates increase for future years up to 1.45 percent for 1986 and thereafter. The proceeds of this tax, and monies collected from the railroad retirement system—for the coverage of railroad retirement beneficiaries) are placed in the Federal HI trust fund from which reimbursement for all benefits and administrative expenses incurred under the HI program is made. The HI trust fund is reimbursed from general tax revenues for the cost of providing coverage for the persons who qualify for HI under the transitional provisions. Amounts paid for HI coverage by persons voluntarily paying the premiums are also deposited in the HI trust fund.

### **Supplementary Medical Insurance**

Premiums not to exceed one-half the estimated *per capita* SMI benefit and administrative costs are paid into the Federal SMI trust fund by those persons enrolled for SMI (or on their behalf). The remainder is paid by the Federal government from general revenues.

The premiums of persons receiving social security cash benefits, railroad retirement, or Federal civil service annuities are deducted from their monthly benefit checks. Persons not receiving monthly benefits are billed quarterly for premiums by HCFA or the Railroad Retirement Board and have a 90-day grace period in which to make payment. A person is given an additional 90 days to pay the premium when the Secretary finds there is good cause for failure to pay the premium before the end of the initial grace period. Premiums may be paid for as long as a year in advance. For individuals financially unable to make quarterly payments, arrangements can be made for monthly payments.

#### **Amount of Premium**

The Secretary of HHS is directed by law to determine the SMI premium rate on an annual basis.

<sup>7</sup>The Omnibus Reconciliation Act 1980 (P.L. 96-499) removed any limits on the number of times a person may re-enroll for SMI.

The dollar amount, prior to the amendments of 1972, was required to be sufficient to produce revenue equal to one-half the expected benefit and administrative costs payable under SMI during the period in which the rate applied. Between 1966 and 1972, the premium increased from \$3.00 to \$5.80 a month. The 1972 amendments made changes in the method of premium determination. The rate is to be determined in December of each year and is applicable for 12 months beginning the following July. It will be increased only in the event of a general cash benefit increase. The percentage increase in the premium in any given year may not exceed the percentage increase in cash benefits. Further, the rate must be determined so that the revenue produced does not exceed, but may be less than, one-half the expected SMI costs. The monthly rate which was \$7.70 effective July 1977, increased to \$8.20 in July 1978, and to \$8.70 in July 1979.

## Administration of the Program

### Hospital Insurance

Under the HI program, groups or associations of providers, on behalf of their members, may nominate a national, State, or other public or private agency or organization to serve as an intermediary in the claims process. A member of an association is free, however, to receive payment from an intermediary other than the association's nominee if approved by the Secretary and acceptable to the intermediary selected. In addition, a provider may deal directly with HCFA.

The Secretary may enter into an agreement with a nominated organization if it is consistent with effective and efficient administration of the HI program. Under the agreement, the intermediary determines the provider's reasonable costs for items and services covered under the program, makes payment, and assists in the application of safeguards against unnecessary use of covered services. The agreement may also call for 1) furnishing consultative services to assist providers in establishing and maintaining necessary fiscal records and otherwise qualifying as providers of services, 2) serving as a center for communicating with providers; and 3) making audits of provider records. HI intermediaries also make payments for home health and outpatient hospital services covered under medical insurance.

Under the law, the reasonable costs of services are determined pursuant to regulations established by the Secretary of HHS. These regulations prescribe the method(s) used to determine costs and the items to be included; they take into account both direct and indirect patient care costs (Code of Federal Regulations, 1980).

Requests for Medicare payment for covered services generally are submitted by the provider of services; they must be signed by the beneficiary (or someone for that individual if he or she is unable to do so). The provider is reimbursed on the basis of reasonable costs of covered services and bills the beneficiary for deductible and coinsurance amounts as well as for services not covered by the program.

In some instances, hospitals may bill the program on a physician's behalf for services rendered to inpatients. In these cases, payment is made by the HI intermediary. For this type of billing, funds are transferred from the SMI trust fund to the HI trust fund to cover the cost of these services.

The intermediary selected by the provider reviews claims for payment and pays the provider. Actual payment for individual claims is made on the basis of an interim rate established between the provider and the intermediary. Final settlement for each provider's operating year is made on the basis of a cost report submitted by the provider and subject to an independent audit.

No payment can be made to Federal facilities except for emergency services, unless the provider serves as a community institution. In addition, payment cannot be made to a provider for those services it is obligated to render at public expense under Federal law or contract.

### Supplementary Medical Insurance

Under the SMI program, the Secretary of HHS may contract with carriers for the performance of specified administrative functions. The carrier's principal function is to determine whether charges are allowable (reasonable) and to make payment. Carriers also have the authority and responsibility to determine, in a given case, whether a claim is for a covered service and to deny claims for noncovered or excluded items or services. In addition, carriers assist in applying safeguards against unnecessary use of services.

The allowable charge, on which the Medicare SMI payment is based, may not exceed the lowest of 1) the physician's or supplier's customary charge for the service, 2) the prevailing charge in the locality for similar services, or 3) the charge applicable to the policyholders or subscribers of the carrier for comparable services under comparable circumstances. The 1972 amendments provided that increases in the prevailing charge levels would be limited by an economic index furnished by HCFA to all carriers. The economic index relates physicians' fee increases to increases in physicians' practice expenses and increases in the general earnings level.

Allowable charges are updated annually to take into account the actual charges physicians and suppliers have billed for covered services in the preceding calendar year. The revised allowable charge levels go into effect on July 1 of each year or as soon thereafter as they can be incorporated into the carrier's payment system. Thus, for the 12-month period beginning July 1, 1980, allowable charge levels were calculated from actual charge levels for calendar year 1979. However, allowable charges may not exceed the upper limit of the prevailing charges set by the law at the 75th percentile of customary charges (weighted by frequency) made for similar services.

Claims for payment for SMI benefits may be submitted to the carrier either by the patient or by the physician or other supplier of services. If the patient submits a claim (an itemized bill) directly to the carrier, he or she receives direct payment of benefits for,

## Appendix C

### The Statistical System of the Medicare Program

covered services; the patient remains responsible for the physician's (or supplier's) bill. If a physician or supplier agrees to accept the allowed or reasonable charge determined by the carrier as the total charge, the physician or supplier submits the bill and is reimbursed. The patient remains responsible for the remaining 20 percent of the allowed charges for covered services and the \$60 deductible (effective 1973), if applicable to the current bill.

Services furnished by group-practice prepayment plans (GPPPs) to members are normally rendered in return for predetermined premium payments. In these cases Medicare reimbursement is made directly to the GPPP. A GPPP which exercises the option provided by law to be paid 80 percent of the reasonable cost of services (in lieu of 80 percent of the allowed charge for such services) generally deals directly with HCFA. Plans which choose to be paid on the basis of allowed charges are reimbursed by the SMI carrier.

For bills incurred in the SMI portion of the program after March 1968, claims must be filed no later than the close of the calendar year following the year in which the services are furnished. For services provided during the last three months of the calendar year, bills may be submitted through the end of the second year following.

#### Health Maintenance Organizations

The 1972 amendments enabled health maintenance organizations (HMOs) to receive reimbursement from Medicare on a capitation basis for both HI and SMI services. An HMO is an organization which provides to enrolled persons, either directly or by arrangement with others, comprehensive health services on the basis of a periodic rate, without regard to the frequency or extent of services furnished to a particular beneficiary. For Medicare purposes, an HMO must provide all of the Medicare covered services generally available in its service area.

Prior to the 1972 amendments, HMO-type plans could be reimbursed under Medicare on a capitation basis only for the costs of providing physician's and related SMI services. Plans that also provided inpatient hospital, SNF, and home health care as covered benefits to their members billed Medicare through intermediaries and carriers on a fee-for-service basis the same as any other provider. Plans that do not choose or cannot qualify to participate under the HMO option may continue to receive Medicare reimbursement on this basis, under the group practice prepayment plan (GPPP) regulations.

Plans that do not choose to participate under either HMO or GPPP regulations may continue to bill Medicare, through carriers and intermediaries, for all Medicare covered services provided to their members who are Medicare beneficiaries. The majority of the existing plans are in this category.

The primary objective of the Medicare statistical system is to provide data to measure and evaluate program operation and effectiveness. Benefit payment operations furnish information about the amount and kind of hospital and medical care services used by disabled persons and persons aged 65 and over, as well as the expenditures for such services. The applications by hospitals, skilled nursing facilities, home health agencies, independent laboratories, and suppliers of portable X-ray and outpatient physical therapy services to participate in the program, provide data on the characteristics of such providers of services. The claim number assigned to each individual serves as the link between the services used under Medicare and the demographic characteristics of individual beneficiaries.

#### The Basic Records

The statistical system is based on four related computer records: the health insurance master file, provider record, hospital insurance (Part A) utilization record, and the medical insurance (Part B) payment record.

#### The Health Insurance Master File

The health insurance master file identifies each aged and disabled person eligible for health insurance benefits and indicates whether he is entitled to hospital insurance benefits, to supplementary medical insurance benefits, or to both. The entitlement record provides the population data for each part of the program which serves as the base for the computation of a variety of utilization rates, limited only by its demographic content.

#### Provider Record

Every hospital, home health agency, skilled nursing facility, independent clinical laboratory, and supplier of portable X-ray or outpatient physical therapy services must apply for participation in the Medicare program. Data on the application forms are stored in the central provider record and are updated as facilities are recertified periodically, as new ones apply for participation, or as some leave the program. When the information in this provider file is combined with utilization data, it serves to relate the characteristics of facilities and agencies that provide care, to the kinds and amounts of service used by persons insured under Medicare.

#### Utilization Record for Hospital Insurance

The administration of the hospital insurance (HI) program requires that two items of information be known about each person at the time of his admission to a hospital—his entitlement under the program and

the extent to which he has used the benefits available to him.

When a patient is admitted to a hospital, the admission section of the inpatient hospital admission and billing form is completed by the hospital and forwarded through its intermediary to the Health Care Financing Administration's central record. As soon as the record is checked, normally in less than 24 hours, the intermediary is informed of the patient's benefit status and of the number of days of inpatient care to which he is entitled during his current benefit period.

This information is then forwarded to the hospital. At discharge, the hospital completes the billing section of the form and sends it to the intermediary for payment. When payment is approved, the intermediary forwards the claim to the Health Care Financing Administration for inclusion in the central record.

As part of this process, information on diagnoses and surgical procedures is coded for a 20-percent sample of beneficiaries based on specific combinations of digits in the health insurance claim number.

Admission and billing forms are handled in a comparable manner by home health agencies and skilled nursing facilities. The outpatient billing form is also transmitted to the Health Care Financing Administration for entry in the central record after the bill is approved for payment by the intermediary.

All the information on utilization experience in hospitals and skilled nursing facilities that is needed to administer the "benefit period" provision is recorded centrally. This information includes stays in certain nonparticipating institutions that meet the definition of a hospital or skilled nursing facility under the law, and days of care not covered or reimbursable under the program.

Each admission and billing form contains both the beneficiary's claim number and the provider's identification number. The resulting record can be readily matched to the beneficiary files and the provider files. By this process, a statistical tape record is created for the sample of insured persons. It contains the information needed for tabulation from the three files related to HI utilization.

### **Payment Record for Medical Insurance**

Payment or reimbursement under the SMI program is made only after receipt by the carriers (intermediaries involved in Part B of the Medicare program) of bills with allowed charges in excess of \$60 during a calendar year.

For the enrolled population, carriers need to know from a central source the amount of the deductible that has been met; thereafter, during the remainder of the calendar year, the only additional information required from the Health Care Financing Administration for reimbursement or payment purposes is whether the person is still enrolled under the SMI program.

The administration and operation of the program requires accurate and complete information of the amounts paid by the carriers for physicians' services and for other services and supplies under this part of the program. To meet these needs, carriers furnish a payment record consisting of tape, punched card or other machine-readable form of each bill paid. A bill is

defined as a request for payment from or on behalf of a beneficiary as a result of services provided by a single physician or supplier.

## **Appendix D**

### **Definitions**

**All Areas**—Consists of the United States, Guam, Puerto Rico, Virgin Islands, all other areas, and foreign countries.

**All Other Areas**—Consists of American Samoa, the Canal Zone, Canton Island, Caroline Islands, Mariana Islands, Marshall Islands, Midway Islands, and Wake Island.

**Amounts Reimbursed**—Represents amounts paid in a calendar year to, or on behalf of, insured persons. Also included in the 1978 payments are \$229 million representing bills paid in earlier years but received too late to be included in reports covering those years. For 1979 payments, \$161 million in prior year bills are included. The amounts for 1978 are based on information from bills entered in Social Security Administration records through June 1979 and for 1979 on bills entered June 1980.

**County**—The primary divisions of the 50 States are, in general, counties. In Louisiana, however, these divisions are called parishes and in Puerto Rico they are called municipios. Alaska is divided into 29 census divisions included here as the equivalent of counties. A number of cities that are independent of county organizations are reported separately in Maryland, Missouri, Nevada and Virginia. Guam and the Virgin Islands are not further subdivided.

**County Unknown**—Data for a small number of enrollees do not permit identification of county of residence. The number of persons residing in such "unknown" counties is not shown separately but is included in the State totals.

**Disability Beneficiaries**—Persons under age 65 entitled to cash disability benefits for at least 24 consecutive months and those who are also eligible solely on the basis of end-stage renal disease (ESRD).

**ESRD, All Ages**—Comprises (1) disability beneficiaries under age 65 with ESRD, (2) persons eligible solely on the basis of ESRD and (3) a small number of persons age 65 and over with ESRD.

**Geographic Classifications**—Based on the address to which the enrollee's cash benefit check is being mailed or the mailing address recorded in the Health Insurance Master (HIM) file on April 1, 1979 for 1978 figures and April 1, 1980 for 1979 figures.

**Health Insurance for the Aged and Disabled**—The program, commonly known as Medicare, that pays for part of the costs of hospital and medical services for participating persons age 65 and over, and certain disability beneficiaries below age 65.

**Hospital and/or Supplementary Medical Insurance**—All persons age 65 and over who enroll under hospital insurance and/or supplementary medical insurance. This total is larger than the total for hospital insurance because aged persons are enrolled for medical insurance but not for hospital insurance.

**Metropolitan and Nonmetropolitan Counties**—The division of counties into metropolitan and nonmetropolitan groups is based on the list of standard metropolitan statistical areas (SMSA's) as published by the National Bureau of Standards under the direction of the Office of Management and Budget. Except in New England, each SMSA includes a county that contains a central city of at least 50,000 inhabitants based on the 1970 census. In addition, contiguous counties are included in the SMSA if they meet certain criteria of economic and social integration with the central city. In New England, an SMSA consists of towns and cities, rather than counties. However, the mailing address in the HIM record file is coded only for State and county. Therefore, for New England, the SMSA was replaced by the metropolitan State economic area, which is defined in terms of whole counties. Metropolitan counties are those counties that are included in an SMSA or metropolitan SEA. These counties are further divided into those without a central city. Nonmetropolitan counties are those that fall into neither an SMSA nor a metropolitan SEA.

**Numbers of Persons Enrolled**—Represents those persons enrolled for coverage in the program as of July 1, the mid-point for each calendar year, as shown by information entered in social security records through March 1979 and March 1980.

**Persons Age 65 and Over**—Aged beneficiaries including a small number of persons in this age group who are eligible solely on the basis of chronic end-stage renal disease (ESRD).

**United States**—Consists of the 50 States, the District of Columbia, and residence unknown.
